

**SlottingPro** is the operations workspace for production homebuilding — release planning, lot slotting, permit status, and milestone schedules for every community in one place.

### Release Planner

Plan releases visually, recalculate every downstream milestone in one click, model what-if scenarios side by side, and revert to your saved baseline instantly.

### Reports Hub

14 operational reports across schedule & production, permits & agency, and operations & governance — every one exportable to CSV.

### Alerts & Email Digests

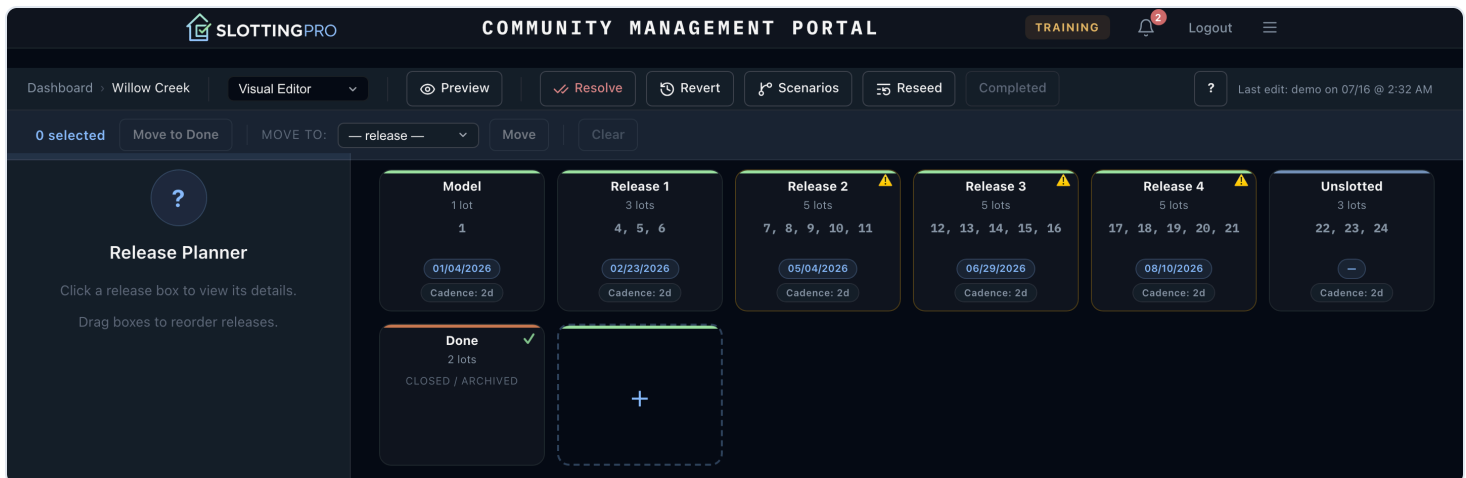

Configurable alert rules feed an in-app notification bell, and scheduled email digests deliver your reports on your cadence.

### Lot Import & Community Management

Stand up a community from an Excel lot import in minutes, with an onboarding wizard and guided tour for new teams.

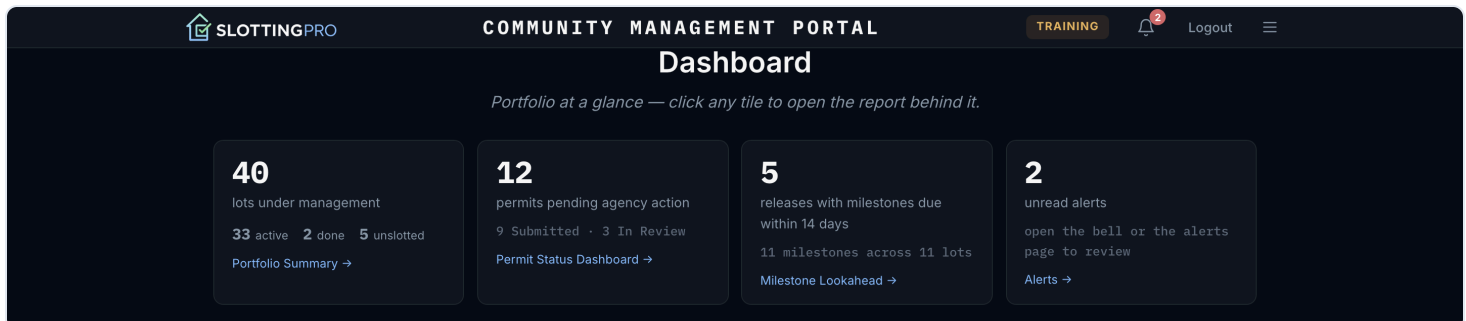

### Role-Based Access, Audit Trail & Data Health

Per-role permissions with a full audit trail of every change, backed by nightly automated data-health checks.

The screenshot shows the 'COMMUNITY MANAGEMENT PORTAL' for 'Willow Creek'. The interface includes a top navigation bar with 'TRAINING', 'Logout', and a menu icon. Below the navigation bar, there's a 'Visual Editor' dropdown and buttons for 'Preview', 'Resolve', 'Revert', 'Scenarios', 'Reseed', and 'Completed'. A '0 selected' status is shown, along with 'Move to Done' and 'MOVE TO: — release —' options. The main area displays a 'Release Planner' with a grid of release boxes. Each box shows a release number, lot count, dates, and cadence. For example, 'Release 1' has 3 lots (4, 5, 6) and a date of 02/23/2026. A 'Done' box is also visible, indicating 2 lots are closed/archived. A large '+' button is at the bottom right of the grid.

**Release Planner.** Releases, lot assignments, and slotting dates at a glance — with Preview, Resolve, Revert, and Scenarios one click away.

The screenshot shows the 'Dashboard' of the 'COMMUNITY MANAGEMENT PORTAL'. It features a header with 'TRAINING', 'Logout', and a menu icon. Below the header, there's a 'Portfolio at a glance — click any tile to open the report behind it.' section. The dashboard displays four key metrics in tiles: 40 lots under management (33 active, 2 done, 5 unslotted), 12 permits pending agency action (9 Submitted, 3 In Review), 5 releases with milestones due within 14 days (11 milestones across 11 lots), and 2 unread alerts. Each tile includes a link to the corresponding report.

**Portfolio dashboard.** Your post-login home: lots under management, permits pending agency action, milestones coming due, and unread alerts — each tile opens the report behind it.
